GAME BETWEEN TWO INDIAN TEAMS

President Roosevelt Will See the Con test Between the Carlisle and Haskell Elevens at St. Louis Today.

PHILADELPHIA, Nov. 25.-Thousands of enthusiastic foot ball rooters arrived during the day and evening to attend the annual struggle on the gridiron between the West Point and the Annapolis cadets at Franklin field tomorrow. Clear and cold weather is predicted, and with the exception of the year when President Roosevelt attended the game, the largest crowd in the history of the army and navy contest is expected to be present. All the leading officers of the army and the navy who can get away from their duties will see the The occasion will be made notable by the presence of Prince Fushimi, cousin to the emperor of Japan.

The two foot ball squads arrived early in the day and went through signal practice on Franklin field in the afternoon.

Special trains carrying the cadets from West Point and Apparally will arrive the Woodmen of the World team. Score: West Point and Annapolis will arrive tomorrow shortly before the game begins. The teams are expected to line up as fol-

to the Rank of Colleges.

CHICAGO, Nov. 25.—The intercollegiate athletic conference, a body composed of representatives of the western colleges and known as the "big nine," in annual session today adopted a rule barring freshmen from participating in university athletics during the first half of the freshman year. Other rules adopted prevent migrating students from entering athletic competitions during the first year after a change from one school to another and permit foot ball players to compete in three preliminary games of the season without using up the entire year of their foot ball career.

Carlisle and Haskell, two hitherto unclassified schools, were raised to the rank of colleges, and in the future students from these institutions who have participated for four years in athletics will be barred from all competition in the colleges controlled by the "big nine." In the past the best athletes from the two Indian schools after graduating have often entered some of the western colleges and have been eligible to contest in all athletic games for four more years.

Prof. Jones of the University of Minne-

Pears.
Prof. Jones of the University of Minnesota asked the conference for an interpretation of the rule which allows a student four years of college athletics, desiring to know what constituted an "intercollegiate game."

know what constituted an "intercollegiate game."

The question was asked because Captain Strathern of the Minnesota foot ball team was debarred last Saturday in Chicago on account of the protest of Northwestern university, which charged that he had in 1500 participated in games against Ames and North Dakota. It was decided that when questions of this kind arise in the future the two colleges concerned shall appeal to the United States commissioner of education to ascertain how the school in question is classified. If it is by him ranked as a normal school the game will not be termed "intercollegiate" and will not be counted against the players participating.

Prof. A. G. Smith of Iowa was elected chairman of the conference and Prof. H. J. Barton of Illinois secretary.

FIRE RECORD.

Barn in Page County. SHENANDOAH, Ia., Nov. 25.—(Special.)— The big basement barn belonging to W. W. Oliphant, about twelve miles southeast of here, burned last evening about 7 o'clock, just after the family had been seated at their supper table. Mr. Oilphant noticed the top of his barn in flames, and with the family hurried out and got all the stock out, but everything else in the barn was burned. The contents included forty tons of hay, 800 bushels of corn, cultivators and plows and other implements. There had been no fire about the barn at all and it is not known where it had its origin. The insurance was \$900 on the building and \$900 en the contents, which leaves a loss to Mr. Oliphant of about \$1,500.

Murderer is Hanged.

Prosecution in Patterson Case Said to Have Surprises in Store.

ALLEGE THREATS AGAINST YOUNG'S LIFE

Woman Who is Expected to Throv Light on Murder is Guarded by New York Detectives.

NEW YORK, Nov. 25.-A new and important witness whose identity thus far has been carefully concealed will be brought forward by the prosecution in the trial of Nan Patterson for the murder of Caesar Young, according to a story which gained considerable circulation today. Beyond the statement that the witness is a woman, that she is young and that she was well acquainted with both Caesar Young and the woman now on trial, the report was indefinite. Of the nature of the disclosure which the witness is expected to make nothing could be learned. That the testimony is considered of great importance by the prosecution, however, seems apparent. According to the report the woman is constantly under the guard of

detectives. The calling of this mysterious woman to the witness chair is said to be only one of the many startling features of Assitant District Attorney Rand's case. Almost of the same importance to the strength of his chain of evidence are several documents he has obtained possession of since Miss Patterson has been a prisoner in the Tombs. It is claimed since the arrest of the young woman that the prosecutor had secured possession of letters which, it is alleged, show that the defendant made threats against the life of Young, but the documents which, it is said, will be produced as a complete surprise are of a different character.

Miss Patterson's father, who called at the Tombs during the forenoon, said that his daughter's mall every day contains several offers of marriage.

"These," he said, "are mostly from farmers, who have read of the case in the papers, and with the morbid interest which is so common, think that she is the affinity chosen for them."

He then produced a letter from a man Alice Gillespie, Rev. Wallace performing who, he said, was employed by the Board the ceremony. The contracting parties are of Health in Washington:

WASHINGTON BANK CLOSES

Western Institution Falls Because it Carries Too Many Mining Logns.

WASHINGTON, Nov. 25,-The Big Bend National bank of Davenport, Wash., has been closed by direction of the comptroller of the currency, because of insolvency, and National Bank Examiner Eugene T. Wilson has been appointed receiver. The failure of this bank, according to a statement issued by the comptroller, is due to osses sustained upon excessive loans, principally to mining interests with which

the officers of the bank are identified. The following is a statement of the resources and liabilities of the bank as shown by its last report of condition to the comptroller November 10, 1904:

Resources, loans and discounts, \$391,158; overdrafts, \$55,460; United States bonds, 13,500; bonds, securities, etc., \$2,753; banking house, \$2,360; other real estate, \$3,064; due from banks and bankers, \$70,544; cash and cash items, \$35,435; redemption fund, \$625; total, 2574,963. cle today says the effort to carry through a huge mining enterprise is believed to be the chief cause of the closing of the Big Bend National bank at Davenport, Wash., today. This enterprise is the driving of a tunnel into Palmer mountain in O'Ranegan county for a distance estimated at two miles, cutting many veins of gold and silver ore at great depths. For several years C. C. May, the president, and ex-Lieutenant Governor E. H. Luce, a director of the bank, have been backing this plan and it is believed the bank has been involved by heavy loans to further the plan. The bank has been regarded with caution by other banks for months and the collapse was not entirely unexpected. The bank had no branches and so far as known was backing no business houses. Its depositors were mainly farmers, among whom President May had great personal popularity. The other banking house at Davenport is stated to be in good condition and it is stated the county banks of eastern Washington are in the best condition they have been for years. LONDON, Nov. 25 .- The report of the ommittee of inquiry in the case of Adolph Beck, who for the crimes of William Thomas, alias John Smith, served a term of five years' imprisonment in England or the charge of obtaining money and jewels from women under false pretenses, places practically the entire blame for the mis-Waterloo of Cleveland, skull fractured, and carriage of justice upon the judge. Sir Forest Fulton, who excluded from Beck's trial in 1896 all evidence favorable to the accused and who refused to state a case for the consideration of a higher court.

The report exonerates the police and other officials from all charges of conspiracy, but finds that the action of the home office in dealing with the case was defective, owing to lack of legal knowledge

on the part of subordinates. The committee remarks that it is an extraordinary fact that in the trial of 1904 the innocent man, Beck, was convicted through the ignorance of the police and public prosecutor of the material fact known to the home office and the prison authorities that Beck and Smith were not the same person, as alleged by the prosecution, and points out the necessity for bringing the different public authorities concerned into such co-ordination as to make the information acquired by one available to all.
